

IT Support Guide

Version: 1.0

Help Desk Hours

The IT Help Desk operates from 8:00 AM to 6:00 PM, Monday through Friday.

Laptop Issues

Employees experiencing hardware problems should create a ticket through the Service Desk portal.

Critical hardware failures will receive priority support.

Password Reset

Employees may reset passwords using the self-service password portal.

If the self-service portal is unavailable, employees should contact the IT Help Desk.

Software Requests

Software installation requests require manager approval.

The IT department reviews all software requests to ensure security compliance.

Equipment Replacement

Damaged equipment should be returned to the IT department before replacement devices are issued.

Temporary replacement devices may be provided when available.

VPN Access

Employees working remotely must use the company VPN to access internal resources.

VPN access requests require manager approval.
