

IT Security Policy

Version: 1.0

Password Requirements

Passwords must contain at least 12 characters and include uppercase letters, lowercase letters, numbers, and special characters.

Passwords must be changed every 90 days.

Multi-Factor Authentication

All employees must enable multi-factor authentication for company accounts.

Device Usage

Only company-approved devices may access internal systems.

Personal devices require approval from the IT department.

Data Protection

Confidential company information must not be shared through personal email accounts.

Sensitive files must be stored only on approved company storage systems.

Software Installation

Employees may not install unauthorized software on company devices.

Software requests must be submitted to IT.

Incident Reporting

Security incidents should be reported to the IT Security Team within one hour of discovery.

VPN Access

Remote employees must use the company VPN when accessing internal resources.
